

# AGILE FOR TEAMS

## INSTRUCTOR-LED WORKSHOP

### COURSE SUMMARY

---

Agile for Teams is a hands-on training workshop designed for teams. Participants include the entire agile team including all team members as well as Product Owners and Scrum Masters. The benefits of the whole team learning approach are that it helps provide a common language and common practices, everyone hears the same thing, and the team can share their specific challenges and opportunities. There is also a significant team-building benefit of this training approach which accelerates team development. Following the training, participants will be ready to roll up their sleeves and hit the ground running with agile ways of working.

### WHO SHOULD ATTEND

---

This course is best suited to newly formed Agile teams including programmers, business analysts, architects, testers, Scrum Masters, and Product Owners. Key team stakeholders such as project managers, managers, and subject matter experts will also benefit from attending.

### COURSE OUTLINE
